

COMPARISON

Bandit SG-75 > VERMEER SC70TX

MORE TORQUE!

The SG-75 comes equipped with a Kohler 74 hp diesel engine featuring 221 ft/lbs. of torque compared to the Cat 67 on the Vermeer SC70TX which has 153 ft/lbs. This difference equals 44% more torque on the SG-75 allowing it to power through stumps efficiently and quickly.

CHIP CONTAINMENT

With the largest chip containment rating in its class of 54 cubic feet, it is easier to clean up the debris after grinding. Vermeer only lists their max chip containment at 23 cubic feet.

GREATER CUTTERWHEEL MOVEMENT

The SG-75 has 15" more cutterwheel swing and 7" more depth compared to the SC70TX reducing the number of times the unit needs repositioned and allowing it to achieve a greater depth.

GRADING BLADE

An optional grading blade is available on the SG-75, currently the SC70TX is not offered with a blade.

COMPARABLE GROUND PRESSURE

The SG-75 weighs around 780 pounds more than the SC70TX, but with the way the machine is designed it features comparable ground pressure (4.2 - SG-75 and 4.3 - SC70TX).
