

# COMPARISON

*Bandit SG-40 > RAYCO RG37T*

**THE SG-40'S CONTROL CONSOLE CAN BE PLACED IN THREE POSITIONS SO OPERATORS CAN GET THE BEST VIEW OF THE STUMP, DEPENDING ON CONDITIONS, LOCATION AND STUMP SIZE**

The Rayco controls located on one side of the machine reducing the flexibility during grinding.

## **DURABLE AND COMPACT**

The SG-40 track is compact and approximately 350 pounds lighter compared to the RG37T. This allows the SG-40 to easily be maneuvered in tight locations all while leaving less of a footprint.

## **CUTTER WHEEL OPTIONS**

The SG-40 features a 18" diameter x 1-1/2" thick cutter wheel, either as Bandit wheel with Greenteeth or a New Revolution wheel with hex teeth. Bandit offers these two cutter wheel options so customers can choose the best set-up that meets their needs.

**Greenteeth Wheel**

**New Revolution Wheel**

6750 MILLBROOK ROAD  
REMUS, MICHIGAN 49340
